## ABOUT 2PQ

**2PQ stands as a pioneering Egyptian brand,**

that combines local manufacturing excellence with the exclusive representation of leading water infrastructure piping systems and innovative pumps.

We proudly manufacture and export high-quality sanitary ware, piping networks, and submersible pumps designed to meet Egypt's infrastructure needs as well as international standards.

### OUR VISION

To contribute to the development of water infrastructure in Egypt and beyond through reliable, sustainable, and advanced plumbing solutions.

We aspire to be the preferred partner locally and globally—whether in residential, agricultural, or industrial projects.

### OUR MISSION

Our mission is to design, manufacture, and export water infrastructure products that improve daily life and enhance industrial resilience.

Through local production and global partnerships, we deliver reliable, tailored, and internationally competitive solutions backed by Egyptian expertise.

### OUR CORE VALUES

At the heart of 2PQ lies a steadfast commitment to integrity, innovation, quality, and customer focus. These values steer every decision we make from R&D and production to delivery and service.

#### Integrity

transparency and honesty in all our dealings.

#### innovation

continuous advancement of our solutions.

#### Quality

uncompromising excellence in materials, design, and manufacturing.

#### Customer Focus

serving our partners locally and worldwide with dedication.

## WHY CHOOSE US

---

Opt for 2PQ and gain a partner who understands the local market, meets every need with purpose-built solutions, and delivers with unwavering reliability.

01

### Complete Value Chain Control

From concept and manufacturing to delivery and support, we oversee every phase ensuring consistent product performance and full accountability.

02

### Local Manufacturing Excellence

2PQ's products are designed and produced for Egyptian climates and building norms. This ensures resilience, relevance, and fast service.

03

### Exclusive Brand Representation

Through strategic partnerships, we offer world-class piping solutions—including UPVC, HDPE, and PPR systems—sourced from globally trusted manufacturers, bringing premium quality with Egyptian access.

04

### Advanced Pump Technology — Mouj

Our Mouj division crafts submersible pumps tailored for domestic, agricultural, and industrial applications—efficient, durable, and crafted to deliver steady water supply across varied conditions.

05

### Expert Technical Support

Our team provides bespoke technical guidance, installation insights, and swift after-sales care ensuring your projects proceed smoothly from planning to handover.

06

### Customer Centric Ethos

We build relationships grounded in responsiveness, transparency, and tailored solutions your project goals are our project goals.

## QUALITY STANDARDS

2PQ is fully dedicated to delivering projects that uphold the highest standards of quality, safety, environmental stewardship, and business continuity. The company recognizes that sustainable success comes from balancing operational excellence with employee well-being, customer satisfaction, and long-term resilience.

To ensure this, 2PQ has established an Integrated Management System (IMS) certified to internationally recognized standards:

ISO 45001:2018 – Occupational Health & Safety Management System

ISO 22301:2019 – Business Continuity Management System

ISO 14001:2015 – Environmental Management System

ISO 9001:2015 – Quality Management System

This framework reinforces 2PQ's culture of continuous improvement and strengthens its ability to meet client expectations while safeguarding people and the environment.

## QUALITY MANAGEMENT SYSTEM (ISO 9001:2015)

---

2PQ operates a comprehensive quality management system designed to ensure efficiency, consistency, and excellence across all projects. This system includes Quality Control Plans, procedures, work instructions, and monitoring tools to guarantee compliance with client specifications and industry standards. Quality is at the heart of every process, ensuring long-term customer satisfaction and trust.

## ENVIRONMENTAL MANAGEMENT SYSTEM

---

The company is committed to minimizing its environmental footprint and promoting sustainability in every project. Through proactive environmental management, resource optimization, and strict compliance with regulations, 2PQ safeguards ecosystems while supporting green growth and responsible development.

## OCCUPATIONAL HEALTH & SAFETY MANAGEMENT

---

Employee well-being and workplace safety are a top priority. 2PQ implements proactive safety programs, training, and risk assessment measures to prevent workplace hazards and incidents. By fostering a culture of safety, the company protects its workforce while ensuring reliable and uninterrupted project delivery. Business Continuity Management Resilience is at the core of 2PQ's operations. The company has developed strong systems and contingency strategies to ensure business continuity in the face of unexpected disruptions. By prioritizing preparedness and rapid recovery, 2PQ guarantees reliability and uninterrupted service to clients, even under challenging circumstances.

# DURABILITY IN EVERY DETAIL

## STAINLESS STEEL SINKS

At 2PQ we have devised different sink designs that range from the most up-to-date and modern to the most timeless and functional. All our models adapt to the needs of each kitchen, giving the space an aspect of modernity, minimalism and sobriety. We have under and overmount models, with one or two bowls, with or without a drainer.

All 2PQ sinks are made of AISI 304 stainless steel, including the models available in different colours, which is suitable for contact with food. This type of steel provides easier disinfection and a special shine, as well as high resistance to contact with acids and environments that cause oxidation and corrosion.

**Our sinks are manufactured using the deep drawing technique** from a piece of stainless steel between 0.7 and 1mm, which provides the product high durability and robustness. Our manufacturing process follows the most demanding quality standards.

## Stainless Steel Sinks

### Stainless steel single bowl kitchen sink

Shape:	Rectangular
Material:	Stainless steel
Number of bowls:	1
Installation type:	Overmount, Undermount

#### Dimensions

Width (mm):	440
Height (mm):	390
